

LED Downlight

The Stylmark LED Downlight is designed for commercial displays that require a long life, low heat alternative to halogen downlights. The Stylmark LED Downlight can be mounted in a variety of display applications including shelving, vitrine displays and showcases. Although the LED Downlight individually have their own part number, Stylmark sells the downlight as part of an ETL Listed system. The listed system (Model# 580794) includes a power supply and up to seven LED downlights.

Ordering Instructions:
Specify the finish and CCT of the LED downlight

Model #	Finish	Color Temperature
230544-02-01	Polished Gold	3500K
230544-03-01	Polished Gold	4100K
230544-02-02	Polished Chrome	3500K
230544-03-02	Polished Chrome	4100K

Specify how many LED downlights will be powered from a single power supply in your installation. Reminder, a single power supply can power up to seven LED downlights.
