- Conference Rooms
- Elevator Cabs

Easy Install Design

What sets AXIA[®] Pro apart is an easy-to-install system that requires minimal tools and training, ensuring a hassle-free experience for contractors. A unique and innovative mounting system facilitates a seamless attachment to mounting surfaces. AXIA[®] Pro profiles can be easily cut in the field for length or trimmed vertically to fit various width scenarios. It can also be fabricated prior to shipment, allowing for a tailored fit to your exact specifications.

Features & Benefits

Unique mounting system addresses many challenges of applying to curved or straight surfaces and inside and outside corners.

Available in many aesthetic choices from Stylmark's anodized color palette

Available in lengths up to 12 ft.

Stunning visual appeal with buffed and brushed finishes
